"Knob Lick's" Errors.

Our Knob Lick correspondent is a valiant warrior in the Populist cause, returning heroically to the charge again and again, and as has been said of the British soldier, never knowing when he is defeated. Such devotion is worthy of a better cause than that of flat currency, which all experience and all reason condemn.

In his article in last week's issue he attempts to show that President Lincoln made a master stroke of financial policy in issuing the \$500,000,000 in demand notes, that he was a comparatively small amount, being instantly redeemable in gold, having many of the money functions of gold and being more easily transported. Look at their value from that exceptional nature. But the Government wanted to get rid of them by cancellation as soon as it found how embarrassing they were and wanted no more of them because they required gold to redeem them on demand. As to their being worth a premium over gold that could have come about through some such means as this: Suppose you had \$10,000 in gold and wished to move to New York. The gold would be too heavy to carry on your person and you didn't care to risk shipping. You would go to some convenient bank here and buy exchange, payable in gold, on some New York bank. Now you would give the bank here your \$10,000 in gold and some dollars extra for his draft on the New York bank for \$10,000. That in effect is making a paper representative of money sell at a premium over the money it represents.

No, the demand notes were not fiat currency proper. Every dollar of them must have a gold or silver dollar to redeem them on demand. The Government didn't dare to issue any considerable quantity more of them, because it would have had to refuse to redeem them on demand from lack of coin in those times of uncertainty.

As a Columbus (Ohio) medical gathering, Francis C. Cotte, a French chemist, claimed that he had discovered a specific for the cure of consumption of the lungs, or tuberculosis, as it is technically called. The treatment is said to be very scientific, consisting of the inhalation of the vapor of formaldehyde, "transported directly through the tissues by the aid of light transmission electricity." He is establishing a sanatorium to treat patients at Polk, Ill. The other much heralded scientific cures having proved a failure the public will be skeptical of this new one until its efficacy is reliably demonstrated.

The county convention on next Saturday, June 17th, will be the session of the county and will be held at the courthouse. There is hardly a doubt that the Goodfellows are the best organized, compactest body of troops in the field, led by the most daring lieutenants, under the generalship of one of the most daring leaders in one or any other State. The result of the preliminary battles is not likely to be decisive and the State convention promises a battle royal. May the best man win!

"Knox Lick," two of the correspondents are after us, carry on strong. We can neither carry on the warfare if there is to be foreign intervention, so we had better patch up a peace and call a disarming congress. When both of us throw our discarded notions of war on the market we can "beat" the market, and also make a "spec" by instructing our brokers accordingly. What do you say to that?

ALLEGED TO BEYAN, 16 to 1, Kentucky Kipling to the Sweet Singer of Michigan, Brains to Buncombe, Mastercraft to Prentice's Work, are rather suggested by a comparison of the speeches of Albig and Bryan at the Louisville Bimetallist bazaar. But Albig was born a foreigner, and as long as the Constitution remains an obstacle among friends he can't be President. When the United States become a Socialistic nation—

CONGRESSMAN David B. Henderson, of Iowa, easily secured a majority of the next House to succeed Thomas B. Reed as Speaker. Now wouldn't it be a situation if Tom Reed should come back from Europe and bring up the question in court why any one should have assumed to administer on his political estate before he had really given it up?

ATTORNEY GENERAL TAYLOR seemed to have the bulge for the Republican nomination for Governor previous to last Saturday's county convention, carrying a large majority of the instructions, but Auditor Sam Stone and Judge Clifton Pratt came in for a fair share of the votes instructed Saturday.

The Safety Building and Loan Association of Winchester has decided to wind up business and quit. If B. & L. associations were ever of any benefit to the country, demagogues against the proper use of capital has one more crime charged to its account.

The presence of State troops didn't deter the Howard fondists from shooting and killing Tom Baker, the chief of the Baker clan, in the very custody of the soldiers at Manchester, Clay county, last Saturday. Kentucky lawlessness aims for the record.

"SILVER DICK" BLAND, of Missouri, is struggling with death. His reputation is that of an honest, clean, good public man, but his hobby has cost his country untold wealth.

HAIL, Jeffries! Farewell, Fitzsimmons! It took only eleven rounds at the Coney Island Athletic Club last Friday night to make a new king of pugilism.

FITZSIMMONS was a winner on the financial side at last. He got \$35,551, while Jeffries' portion was only \$27,051. Fitz had excellent balm for his wounded spirit.

Next Wednesday, June 21st, Louisville will have the hottest State Democratic convention that has ever met.

East Fork of Flat Creek. Nearly all the farmers got done setting tobacco Saturday. John T. Dindell, J. W. Darnell, Mike Hedrick and Boone Vandandingham went fishing one day last week to Rock's Island, in Licking river, and had good success. Boone caught a fish a size larger than himself and could not get it ashore. Mike said Boone dragged him through the water and a thousand nettle bees stung him on the legs at once, but Mr. H. got out safe.

Naylor's Branch. Misses Martha and Emma Hendricks, of Mt. Sterling, visited friends here and attended church at State Valley Saturday night and Sunday.

There was a large crowd at State Valley church Sunday. There was enough money made up to pay the church out of debt, and we thank the brethren who came from afar and helped us pay out of debt. The members of the company of State Guards at this place expect to receive their arms and uniforms next week. They will drill and practice regularly.

On and after June 15th the passenger train which runs between here and Lexington will run through to Ashland, making three mail trains each way daily.

We read with interest the Washington letter from Wm. F. Schooner in last week's Outlook. Mr. Schooner was once editor of the Morehead Advance and has many friends here.

There will be a Democratic mass meeting here Saturday to instruct delegates to the Convention at Louisville. The people seem to be about evenly divided between Goebl and Stone.

In Circuit Court last week Rev. Thomas Cooper was fined \$20 for disturbing public worship. Rev. Cooper interrupted another preacher who did not expound the Scriptures to suit his notion.

Wyley, the three-year-old son of Wm. Cooper, was accidentally shot by his older brother Thursday morning. The boy was playing with a pistol, "didn't know it was loaded," and discharged it, the ball taking effect in the child's arm.

The annual commencement of Morehead Normal School took place Thursday evening at the College building. An appropriate and varied program was rendered, to the delight of a large audience. The school closed a successful year under the management of Prof. Butten and Henry.

Crooks. Jas. Becher sold two calves to Peter Hart for \$25. John T. Ginter bought a cow from J. P. Johnson for \$30. Elder Dawson will preach here next Sunday afternoon at 3 o'clock.

The grasshoppers are still playing havoc with the tobacco in this section.

The county road which runs from the Forge farm to Preston was opened up and received by the county last week.

The wife of Jerry Botts, the colored wagoner for Cross Barnes, died Friday of last week. She leaves a household of children. We sympathize with Jerry in his bereavement.

Last Sunday immediately after Sunday school at Kendall's Spring a report of a pistol was heard beside the school-house. The grand jury should attend to the gentleman (if I should call him a gentleman).

Several from here attended the dedication of the State Valley Church Sunday, among whom was your writer. We saw "the lonely widow" of Flat Creek. She was looking exceedingly well and just as sweet as ever.

The strange man whom "Flat Creek" saw pass through their burg last week was a subscriber of THE OUTLOOK. His last week's paper was misplaced, and he was on the road to Owingsville to get his copy of that edition. You see people go crazy if they don't get THE OUTLOOK.

Knob Lick. Fine growing weather. Corn and oats are growing nicely.

There has been more millet sown than usual.

The wheat is considerably injured by rust.

Wm. Barker planted some new ground in corn on J. M. Collier's place that was up in three days.

J. M. Collier bought an 8-year-old sorrel horse of S. S. Platter, which is strictly a good one; price, private.

Tom Costigan is still poorly. He was suffering excruciating pain Sunday. His little child is at the point of death.

Mr. Kendall, who is in the employ of the Hurst Home Insurance Co., is rebuilding cribs for Mrs. Mary Warren damaged by wind.

Messrs. Butcher and Planery, of Johnson Co., were here Saturday and Sunday with some 150 sheep for the Owingsville market. Bud Collier and Frank Phelps were here Sunday with some hogs and cattle for same market.

It is not a question of what material shall be used in making dollars, but the number of them that the money power is looking after. If all the metal money should be taken from circulation and nothing but paper currency used and the volume fixed at less than is now in the channels of trade a paper dollar would have a greater purchasing power than a gold dollar of today.

It is more money that the holders of vast fortunes fear, and if a huge mountain of gold should be discovered they would be the first to raise the cry: "Gold must be demonetized!"

Odessa. Willis Manley and family moved last week to the upper Licking neighborhood.

The whites made the rounds in this community again Saturday night a week ago whipping some and notifying others.

R. A. Maxey, who had been visiting his many friends and relatives here for the past two weeks, left Tuesday morning for his home in Arkansas City, Kansas.

Obituary of Sister Flora Whaley, the youngest child and daughter of Charles G. and Sarah S. Whaley. She had been suffering over a year with a complication of diseases, the most serious being appendicitis, which caused the great pain and suffering, which she believed and insisted she could only be relieved by a surgical operation. The family finally consented for the operation to be made, and on Tuesday, June 6th, Drs. Garr and Aikin, of Flemingsburg, and Jones, of this place, performed the operation at her home and removed the vermiform appendix. She died in sixty hours from the operation. She stood the operation well, but she began to fail in 36 hours, after which she never revived and died at 10 o'clock p. m. June 9th. Funeral services were conducted at the Christian Church at Bethel at 3 o'clock p. m. June 10th, by Elder T. S. Tinsley, after which the remains were followed by a large crowd of sorrowing friends to where they were laid to rest, by the side of her sister, who had preceded her to the grave but a few months, in Longview Cemetery. She was born Dec. 5th, 1875, died June 9th, 1899. She joined the Christian Church at White Oak in 1890 under Elder S. S. Jones' preaching, and lived a faithful member until death. She died in strong faith in her Master. She made the statement to her sister, Mrs. T. L. Jones, when preparing for the operation, that she did not fear death if it came, but had a great desire to live and enjoy life. She was well liked by all who fortunately formed her acquaintance. She will be greatly missed in the community and church. We hereby extend our heartfelt sympathy to the bereaved father and mother, sisters and brothers in their sad and sorrowing hours.

Dr. L. F. Robbins and Rev. S. B. Davis went to Lexington Saturday with the latter's son, Alpha, who is suffering with an affection of the eyes. They had an operation performed on his eyes and left him in the hospital there. The operation was successfully performed, and they think his eyesight will be permanently improved.

The editor of THE OUTLOOK will confer a favor on a number of his readers in this vicinity if he will kindly eliminate the long and tedious editorials that the Knob Lick correspondent "perpetrates" each week. We appreciate the news items that he sends in, but we do not think that the correspondence column of a county newspaper is a proper place for long and tedious dissertations on political subjects that few read with interest and none appreciate.

Flat Creek. Tom Markland bought a horse for \$55. Lotcher Cartmill, of Prickly Ash, moved here Saturday.

Stripping grass seed seems to be the order of the day. Lee Tant bought a horse from Sam McClure for \$65.

Bill Warders has it so bad that he declares even the jaybirds are singing "Dewey." Aren't the boys who did the real fighting to get no credit for the affair at Manila?

Your scribe was at Little Rock and Paris a part of last week on business for the H. F. Co. While at the latter place we had the pleasure of stopping over night with Tassus and "Uncle" Enoch Burns, formerly of this county. He is farming on a large scale and says he couldn't live without THE OUTLOOK. "Uncle" Enoch is not so well satisfied. He has a garden second to none in the State. "Uncle" Enoch says he intends to visit up in "Old Kaintuck" this fall.

Some of our boys, regardless of smallpox, enjoyed the circus at Mt. Sterling and had a great big time. Walter Copher took special delight in feeding taffy to the elephant, while Bob Stull constantly stirred up the animals with a long pole to hear them roar. Vamp Smoot and Jim Jones coquetted with the lemons, and William Mark received admiring glances from the spotted clown. It was a gala day for the boys and we presume a business day for those who sold lemonade and soda pop.
